DESCRIPTION

This project provides for the design and construction of 1,200 additional garaged parking spaces at the Glenmont Metrorail Station on the west side of Georgia Avenue.

JUSTIFICATION

The County's 10-Year Transportation Plan calls for the expansion of the existing Glenmont Metro Garage. The existing garage is regularly over capacity early on weekday mornings. By expanding parking at the station, more potential transit riders will be drawn to use Metrorail rather than driving to Washington, D.C. and to Silver Spring.

WMATA has prepared traffic and environmental studies for the parking expansion as well as General Plans. The WMATA Compact Public Hearing was held on April 26, 2006. Plans incorporate the Georgia Avenue Greenway, ADA requirements, and pedestrian safety.

OTHER

The full cost of this project is \$24,747,000. The Maryland Department of Transportation has contributed \$1,600,000 for the design of this garage, which is not reflected in the expenditure and funding schedules since these funds went directly to WMATA. The project will be designed and constructed by WMATA. The County is reviewing legal agreements. Metro will advertise design/build contract after agreements are finalized.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.

APPROPRIATION AND EXPENDITURE DATA

Date First Appropriation	FY05	(\$000)
First Cost Estimate	FY08	23,147
Current Scope		
Last FY's Cost Estimate		23,147
